Kenmerken

- ras: Europese Korthaar
- geslacht: mannelijk
- kleur(en): zwart en wit
- leeftijd: unknown

Extra informatie

We think he is an older cat.. He had been around our garden for a few months but does leave in the night time. He is in need of a vet because he has a claw on his front paw that has over-grown and he limps when he walks. We also think that he has some bad teeth because his face sometimes swells up. He also isn't neutered. He does get along well with our 3 female cats.
